

Installer - Technician – Electronics

About the Job

We are a small, ten year old, Systems Integration company in Rochester, NY that provides end-to-end, video surveillance solutions for Defense and Homeland Security clients. We need sharp, hard-working people to provide field integration and deployment support for a major project on a temporary to permanent basis.

General Position Summary:

Relevant skills include planning and understanding camera field of view, line of site, mounting schemes, and power and communication connections. Experience with CCTV systems, basic networking, low voltage controls and wiring required. Ideal candidate must be able to support ongoing research and development projects. Job requires a high level of organization and ability to prepare complete and accurate documentation. We offer an entrepreneurial work environment with significantly more opportunity for personal growth and satisfaction than larger-sized companies. PLE encourages independent decision-making, and allows substantial control over working schedules and future projects. Military technician experience preferred.

Major Responsibilities & Tasks:

- Hands-on involvement in all aspects of field activities including installation, configuration, troubleshooting and documentation.
- Support integration and test teams in the field and in the lab.
- Technical and manual labor during installation and configuration of equipment, both in the field and in lab environment.
- Survey surveillance system sites including:
 - Ø Choosing locations of cameras, poles, cabinets where required
 - Ø Documenting location data on maps as well as technical reports of findings at site
 - Ø Photographing Line of sight, Field of view, etc.
 - Ø Interacting with client contacts and client officials
 - Ø Preparing preliminary cost estimates to support proposal development
- Supervised/unsupervised wiring installation and hook ups
- Assisting in the troubleshooting and configuration of surveillance systems both in the field and lab
- Assisting in the execution of software and hardware testing, both in the field and in the lab
- Reports to: Engineering Manager

JOB SPECIFICATIONS

Knowledge:

- Associate's degree / or equivalent – engineering discipline preferred - plus three years experience installing video surveillance equipment and associated endpoint equipment.

Experience:

- Must be physically able to lift over 50 lbs
- Must have experience using computers with Microsoft Office, experience with Linux a plus
- Knowledge of basic electronics components operations and basic troubleshooting
- CCTV and VMD experience a plus

Residency Requirements:

- Must be a US Citizen
- A valid US Passport is required
- Recent military clearance a plus

Travel Requirements:

- Must be willing and able to travel domestically from our Rochester, NY corporate office to support customer activities. Occasional overnight stays required.

PLEASE SUBMIT YOUR RESUME AND COMPENSATION REQUIREMENTS VIA E-MAIL TO paul@plegov.com. ONLY APPLICANTS THAT POSSESS THE MINIMUM QUALIFICATIONS WILL BE CONSIDERED. CANDIDATES MUST SUCCESSFULLY COMPLETE AN EMPLOYMENT BACKGROUND INVESTIGATION. **NO PHONE CALLS PLEASE!**
